Monday	Kodu Club
Tuesday	Ball Sports Club
Wednesday	Earth Sciences Club, Sports Club
Thursday	Tennis Club
Friday	Guitar Lessons, Jacobstow Village Well Dressing 1.15pm

Whole School Attendance for last week 98.1 %

**BIRTHDAYS** – Andrew,

**SATS** – The Y6 children have their SAT tests next week we would encourage parents to ensure that the children get an early night and eat a good healthy breakfast in the morning. Also, it is beneficially if the morning routine is as calm and well-ordered as possible so the children come to school relaxed and ready. We will start the day as always with tea and toast. We are not pretending that the tests aren't important both to school and to the children, however, we know that they have been well prepared and that they have the confidence and know how to be able to do the best they can. Good luck to them all.

If your child is ill and they miss a test they will take it during the following week. Also, if something happens at home which you feel may have an impact upon their ability to sit the test then please let us know so we can give the relevant support.

**PLASTIC FREE SCHOOL** – Our children, along with millions of others from this country and around the world, have expressed their concern via the school council suggestion board that they would like to work towards a plastic free school. As a school we are already very aware of the issues around plastics and do recycle as much as we are able to through the Cornwall system and try to minimise the use of single use plastic in school. The preschool are making eco-bricks using their single use plastic waste. However, the biggest single use plastic waste in school comes in the children's lunch boxes. We have begun to discuss this with the children and asked them to consider ways of reducing the single use plastic. Below are our ideas to help with a plastic free packed lunch:-

- Either put sandwiches unwrapped in a plastic reusable box or wrap with recyclable foil
- Avoid using cartons of juice or milkshakes as these are not recyclable
- Use reusable water bottles instead of one off bottles of water or juice.
- Avoid individually wrapped biscuits & cakes as this wrapping is not recyclable.

Unfortunately, we are not able to recycle lunchtime plastics at school because of needing to wash containers which we don't have the facilities for. But, we are happy for the children to recycle their organic waste to be composted at school.

If we all do a little bit it makes a big difference - [www.facebook.com](http://www.facebook.com) Do it for David - for more information.

**PARKING** - Tilley's have asked us to remind parents about parking again. As cars parked on the corners and close to the parking restrictions are impeding their ability to swing safely in and out of the car park. We do understand how difficult it is with such little space. Don't forget there are parking spaces in the small car park near the field which can be used to ease the congestion.

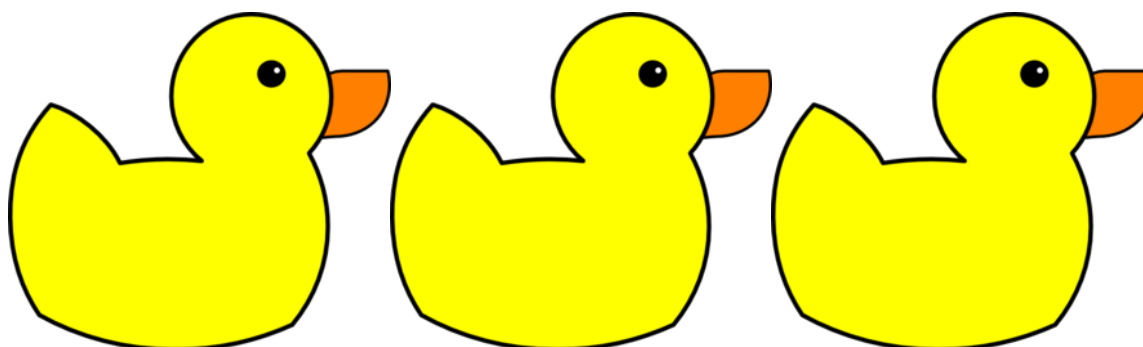

**JACOBSTOW VILLAGE WELL DRESSING** – Parents are welcome to join us at 1.15pm on Friday 17 May for the whole school walk to Jacobstow Holy Well. The children will need to wear old trousers and old shoes to school that day as we shall be walking over the fields. We are helping the village to celebrate their historic site.

**SOLAR FARM VISTS** – On Tuesday 21 May Rainbows will be visiting Canworthy Solar Farm in the morning and Green Base will visit in the afternoon. The children will need to wear their school uniform and old sensible footwear, they will also need a coat. These trips will take place within the school day and there is no charge. School dinners will be as usual for both class on that day.

## **JACOBSTOW PRIMARY SCHOOL DUCK RACE SUNDAY 26 MAY**

Crackington Haven

Please buy a duck or 2, £1 available from school, please send money in a named envelope and we will give you your duck's number.....Good Luck
